Cairns Water Security Stage 1

Thumm Street & Cairns Road, Gordonvale

Construction Works Notification #053

16 June 2025

Welcome to the latest localised update for the Cairns Water Security Stage 1 project. These construction works notifications will continue to be distributed to keep you informed of upcoming construction activities within the Gordonvale, Aloomba and Behana Gorge communities.

From **Monday, 23 June 2025,** John Holland will continue trenching work for the installation of the new underground pipeline at the intersection of Thumm Street, Norman Street, Cairns Road and Highleigh Road, Gordonvale (see map overleaf). This work will be undertaken between **6.30am** and **6.30pm Monday** to **Saturday** and will take approximately **6 weeks** to complete, weather permitting.

To facilitate these works and for the safety of workers and the travelling public, the following approved traffic diversions will be implemented:

- A variable work zone has been established to create a clear and safe working area.
- One lane closure at the intersection of Thumm Street, Norman Street, Cairns Road and Highleigh Road. The intersection will be under 24-hour traffic control, permitting one-way traffic to flow from Highleigh Road into Cairns Road and vice versa, from Cairns Road into Highleigh Road. (Refer map overleaf)
- Access to Thumm Street and Norman Street will be via a detour. (Refer detour map overleaf)

What can I expect?

- During construction, the worksite will be protected with traffic cones for vehicle management and temporary fencing for pedestrian management to safely delineate the work zone.
- Short-term, partial road closures and traffic control as required.
- Delivery of pipes to the work area.
- Earthworks construction, including excavation of a trench and temporary reinstatement.
- Installation of underground pipe and backfilling of the trench.
- Construction personnel, increased vehicle movements, construction machinery and equipment operating within the area.
- Construction noise associated with these works.
- Vegetation removal as required.
- After completion of the pipe installation, local streets will be reinstated to their original condition.

How are we managing impacts?

- John Holland will liaise with property owners if access to property is required or impeded to conduct works.
- Traffic control will be in place, where required.
- Notify residents and businesses of key activities including any out-of-hours work

Thank you for your patience and cooperation while we conduct this important work.
