Cairns Water Security Stage 1 Design Investigations

Works Notification #013
26 September 2024

About the Cairns Water Security Stage 1 (CWSS1) Project

Cairns Regional Council is developing the CWSS1 project at Gordonvale to deliver a new drinking water supply to the Cairns community. The project involves:

- building a water intake at the Mulgrave River, near the Desmond Trannore Bridge, Gordonvale.
- building a water treatment plant and water reservoirs, on Council land at Jones Road, Gordonvale.
- modifying the existing raw water pipework at Behana Creek intake; and
- building a network of pipes to take raw water to the treatment plant and treated water from the plant to residents.

Visit the project website for more information **www.cairns.qld.gov.au/CWSS1.**

Description of works

Council's contractor, John Holland, will be working to identify underground services to assist with the project's planning. Service location work involves identifying and marking existing utilities such as gas, telecommunications, power, sewer and water.

Timing of works

- Commencement date: Thursday, 3 October 2024
- Expected duration: Approximately **three days**
- Work times: **6.30am** and **6.30pm Monday to Saturday**

The approximate location where service locating works are happening are indicated on the map overleaf. Please note the works are dependent on weather conditions and are subject to change.

What can I expect?

- Hydro-vac trucks and service locating personnel operating within road reserves.
- There will be some noise associated with these works.
- You may notice paint marks on footpaths and roadways where services are detected.

How we are managing impacts

- Traffic control will be in place, where required.
- John Holland will liaise with property owners if access to easements is required to conduct works.

Thank you for your patience and cooperation while we carry out this important work.
