Cairns Water Security Stage 1

Out-of-Hours Work - Anderson Road, Aloomba

Construction Works Notification #141

29 September 2026

Welcome to the latest localised update for the Cairns Water Security Stage 1 project. These construction works notifications will continue to be distributed to keep you informed of upcoming construction activities within the Gordonvale, Aloomba and Behana Gorge communities.

From **Tuesday, 6 October 2026**, John Holland will recommence trenching works on **Anderson Road, Aloomba** to install a valve as part of the final connection to the Aloomba treated water network.

To safely complete the connection, construction activities will be undertaken **24 hours a day from 6.30am on Tuesday, 6 October 2026 to** 6.30pm on Friday, 9 October 2026. Once the connection works commence, activities must continue until the connection has been completed and tested.

As a result, continuous works, including **three (3) consecutive night shifts**, will be required from **6:30 pm on Tuesday, 6 October 2026 to 6:30 am on Friday, 9 October 2026**. These works have been scheduled overnight when water demand is at its lowest to help minimise impacts to the water supply and the broader community.

As part of these activities, the existing water supply will not be interrupted.

In the event of unforeseen circumstances such as adverse weather or resource constraints, these works may be rescheduled and completed at the next suitable opportunity.

To enable works to be undertaken safely, a traffic detour will be in place to ensure the safety of the community and workers on site (see map overleaf). To minimise impacts to local families, the scheduled school bus service will be permitted to travel through the work area under escorted traffic control.

These activities may result in additional traffic impacts. We encourage the community to plan their journeys accordingly and allow extra travel time.

Location	Duration	Road Closures & Access	Detour/Access Info
Anderson Road	< 1 week	Local traffic only on Anderson Road between the Bruce Hwy and Leumann Road.	Access to Aloomba via Leumann Road. Local driveway access maintained from Leumann Road.

What can I expect?

- The work zones will be clearly marked with traffic cones, barriers and temporary fencing.
- Construction noise, machinery operation, temporary lighting and increased construction vehicle movement, including during overnight works.
- Reinstatement works in the area are scheduled to take place at a later stage.

How are we managing impacts?

- Clearly marking the work zone with traffic cones, barriers, and fencing.
- Liaising with property owners if access to properties is temporarily impacted.
- Implementing traffic control measures in accordance with approved traffic management plans.
- Notifying nearby residents and businesses about key activities, including any out-of-hours work.
- Positioning temporary lighting to minimise light spill where applicable.

Thank you for your patience and cooperation while we conduct this important work.
