## Works Notification #004
## 27 May 2024

### About the Cairns Water Security Stage 1 (CWSS1) Project

Cairns Regional Council is developing the CWSS1 project at Gordonvale to deliver a new drinking water supply to the Cairns community. The project involves:

- building a water intake at the Mulgrave River, near the Desmond Trannore Bridge, Gordonvale;
- building a water treatment plant and water reservoirs, on Council land at Jones Road, Gordonvale;
- modifying the existing raw water pipework at Behana Creek intake; and
- building a network of pipes to take raw water to the treatment plant and treated water from the plant to residents.

Visit the project website for more information **www.cairns.qld.gov.au/CWSS1**

### Description of works

From **early June 2024**, Council's contractor, John Holland, will commence early construction works. Works will occur between **6.30am and 6.30pm Monday to Saturday**. Low impact activities such as managing environmental controls, machinery re-fueling and traffic control may occur outside of these hours.

### Works will involve:

- Installation and compaction of gravel of the unsealed section of Jones Road to the water treatment plant site (Refer to map overleaf)
- Installation of environmental controls
- Surveying local roads and nearby streets to record their existing condition

### What can I expect?

- Temporary lane closures and traffic control.
- Construction machinery and equipment operating on site.
- Delivery of materials and equipment.
- Motorists should follow traffic controls and drive with caution.
- There will be some noise associated with these works.

### How we're managing impacts

- Traffic control will be in place, where required.
- Water carts will be used as required, to wet down areas to assist in managing dust.

Thank you for your patience and cooperation while we carry out this important work.
