Cairns Water Security Stage 1

Anderson Road, Aloomba

Construction Works Notification #036

10 April 2025

As part of Cairns Water Security Stage 1 project, John Holland is required to install a new network of pipes underground of both raw water and treated water between Behana Gorge, Aloomba and the water treatment plant site on Jones Road, Gordonvale.

From **Thursday 17 April 2025,** John Holland will commence trenching work for the installation of the new network of pipes starting on Anderson Road, Aloomba between Nielsen Road and Leumann Road, (see map overleaf). This work will be undertaken between **6.30am** and **6.30pm Monday** to **Saturday** and will take approximately **4 weeks** to complete, weather permitting.

A variable work zone will be established to create a clear and safe working area, and it is anticipated that excavation will progress at 40m per day, dependent on ground conditions.

What can I expect?

- During construction, each open trench will be protected with traffic cones for vehicle management and temporary fencing for pedestrian management to safely delineate the work zone.
- Short-term, partial road closures and traffic control as required.
- Delivery of pipes to the work area.
- Earthworks including excavation of a trench and temporary reinstatement.
- Installation of pipe and backfilling of the trench.
- Instruction personnel, increased vehicle movements, construction machinery and equipment operating within the area.
- Construction noise associated with these works.
- After completion of the trenching, local streets will be backfilled and reinstated to their original condition.

How we are managing impacts

- John Holland will liaise with property owners if access to property is required to conduct works.
- Traffic control will be in place, where required.
- Notify residents and businesses of key activities including any out-of-hours work

Thank you for your patience and cooperation while we conduct this important work.
