# Water Treatment Plant, Jones Road

## Construction Works Notification #057
## 24 June 2025

**Welcome to the latest update for the Water Treatment Plant site as part of the Cairns Water Security Stage 1 project. These construction works notifications will continue to be distributed monthly to keep you informed of upcoming construction activities.**

A significant project milestone has been achieved with the concrete works for the Dissolved Air Floatation Filtration (DAFF) water treatment plant completed. More than 1,300 cubic metres of concrete was used to construct this vital piece of infrastructure.

Throughout **July 2025**, John Holland will continue construction at the water treatment plant site as part of the Cairns Water Security Stage 1 project. Works will continue to occur between **6.30am to 6.30pm Monday to Saturday**. Low impact activities associated with the works, such as water cart operations, machinery re-fueling, managing environmental controls, early morning concrete pours and traffic control may occur outside of these hours.

### Works in July will include:

- Earthworks on site for the future permanent access roads and the Administration building.
- Steel fixing and concrete pours at the water treatment plant site.
- Installation of pipework and backfilling of the trench on Jones Road.
- Construction works continue on the 5ML reservoir and wash water tanks.
- Ongoing works at the top of the hill for the 8ML reservoir including concrete pours and formwork.
- Commence water integrity testing on the water holding structures.
- Commence construction of the retaining wall at the top of the hill.
- Ongoing building works for the Administration building, located next to the water treatment plant.
- Ongoing deliveries of pipes and fixtures to the site compound at Jones Road, Gordonvale.

### What can I expect?

- Water carts will commence onsite from 6am to wet down areas to assist in managing dust.
- Trucks and other vehicles will enter and exit the construction site via Jones Road.
- Construction machinery and equipment operating onsite including trucks, graders, dump trucks, excavators, concrete trucks, and pumps.
- Construction noise associated with these works.
- Deliveries of pipes, materials, and equipment to Jones Road water treatment plant.
- Temporary road closure of Jones Road with local residents only permitted.

### How we are managing impacts

- John Holland will liaise with property owners if access to property is required or impeded to conduct works.
- Traffic control will be in place, where required.

Thank you for your patience and cooperation while we conduct this important work.
