Cairns Water Security Stage 1 Design Investigations

Works Notification #005
22 May 2024

About the Cairns Water Security Stage 1 (CWSS1) Project

Cairns Regional Council is developing the CWSS1 project at Gordonvale to deliver a new drinking water supply to the Cairns community. The project involves:

- building a water intake at the Mulgrave River, near the Desmond Trannore Bridge, Gordonvale;
- building a water treatment plant and water reservoirs, on Council land at Jones Road, Gordonvale;
- modifying the existing raw water pipework at Behana Creek intake; and
- building a network of pipes to take raw water to the treatment plant and treated water from the plant to residents.

Visit the project website for more information **www.cairns.qld.gov.au/CWSS1**

Description of works

As part of the construction, design investigations are required to provide essential information to assist with planning. Council's contractor, John Holland, will undertake work as part of these investigations including survey, noise monitoring and geotechnical investigations.

Timing of works

- Commencement date: Wednesday, 29 May 2024
- Expected duration: approximately **two weeks**
- Work times: **6.30am** and **6.30pm Monday to Saturday**

The location and scheduling of the works are outlined on the map overleaf. Please note works are dependent on weather conditions and are subject to change.

What can I expect?

- Temporary lane closures and traffic control.
- Construction machinery and equipment operating on site.
- Motorists should follow traffic controls and drive with caution.
- There will be some noise associated with these works.

How we're managing impacts

- Traffic control will be in place, where required.
- Water carts will be used as required, to wet down areas to assist in managing dust.

Thank you for your patience and cooperation while we carry out this important work.
