Cairns Water Security Stage 1

Mill Street, Gordonvale

Construction Works Notification #069

5 August 2025

Welcome to the latest localised update for the Cairns Water Security Stage 1 project. These construction works notifications will continue to be distributed to keep you informed of upcoming construction activities within the Gordonvale, Aloomba and Behana Gorge communities.

From **Tuesday, 12 August 2025,** John Holland will commence **trenching works** for the installation of the new network of pipes on Mill Street, Gordonvale from Swan Street to Muir Street. (see map overleaf). This work will be undertaken between **6.30am** and **6.30pm Monday** to **Saturday** and will take approximately **4 weeks** to complete, weather permitting.

To facilitate these works and for the safety of workers and the travelling public, the works will be undertaken in **two (2) stages** (see maps overleaf) and the following approved traffic diversions will be implemented.

Stage	Location	Duration	Road Closures & Access	Detour/Access Info
Stage 1	Mill Street	~2 Weeks	Closed between Swan Street and Moller Street – No Street Parking	Local Traffic Only Access via Swan Street
Stage 2	Mill Street	~2 weeks	Closed between Moller Street and Muir Street – No Street Parking	Local Traffic Only Access via Moller Street

These activities will be undertaken alongside the horizontal directional drilling (HDD) occurring along Mill Street between Muir Street and Cannon Street which may result in additional traffic impacts. We recommend allowing extra travel time to account for potential delays in the area.

What can I expect?

- Temporary road closures, detours and traffic controllers. Local traffic access permitted.
- Earthworks including trench digging and temporary surface repairs.
- Underground pipe installation and trench backfilling.
- Construction noise, machinery, and increased construction vehicle movement.
- Streets will be restored to original condition after works are completed.
- Additional works occurring on along Mill Street between Muir Street and Cannon Street.

How are we managing impacts?

- Trenches will be safely marked with traffic cones and fencing.
- John Holland will contact you if your property access is impacted.
- Traffic control measures will comply with approved traffic diversion plans.
- Nearby residents and businesses will be notified of key activities, including any out-of-hours work.

Thank you for your patience and cooperation while we conduct this important work.
