Cairns Water Security Stage 1

Mill Street, Gordonvale

Construction Works Notification #92

13 November 2025

Welcome to the latest localised update for the Cairns Water Security Stage 1 project. These construction works notifications will continue to be distributed to keep you informed of upcoming construction activities within the Gordonvale, Aloomba and Behana Gorge communities.

From week commencing **Thursday, 20 November 2025,** John Holland will continue with the installation of the new network of pipes on Mill Street, Gordonvale (See map overleaf). This phase of work involves the connection of pipes that were previously installed using horizontal directional drilling (HDD) method. The works will be carried out between **6.30am** and **6.30pm, Monday** to **Saturday** and will take approximately **5 weeks** to complete, weather permitting.

To ensure the safety of workers and the public, the following approved traffic controls will be implemented (see map overleaf)

Location	Road closure	Detour/Access Info
Mill Street / Muir Street intersection	Intersection closed at **Mill Street** and **Muir Street**.	Detour via **Moller Street**
Mill Street/Cannon Street intersection	Intersection closed at **Mill Street and Cannon Street**	Local traffic via **Church Street**

St Michael's School - Carpark - Stop, Drop, and Go **Saint Michael's Church** - Carpark	Intersection closed at **Mill Street** and **Muir Street**.	Access via **Church Street** A temporary cul-de-sac will be installed at the road closure to provide continued access to the school and church. Traffic controllers will be available during school hours to assist with vehicle movements.

These activities may result in additional traffic impacts, and we recommend you allow extra travel time.

What can I expect?

- A variable work will be established and protected with temporary fencing to ensure a clear and safe working area.
- Road closures including detours, partial road closures and traffic control as required.
- Earthworks, welding of pipes, testing of connections and temporary reinstatement.
- Construction noise, machinery, and increased construction vehicle movement.
- Streets will be restored to original condition after works are completed.

How are we managing impacts?

- The work zone will be safely marked with traffic cones, barriers and fencing.
- John Holland will liaise with property owners if access to property is required or impeded to conduct works
- Traffic control measures will comply with approved traffic diversion plans.
- Nearby residents and businesses will be notified of key activities, including any out-of-hours work.

Thank you for your patience and cooperation while we conduct this important work.
